

## GSR YEARLY REPORT

The GSR is coming back from an 8<sup>th</sup> month suspension and working to get reestablished in the fellowship. There have been changes throughout the fellowship which has affected the GSR. How the GSR can be best be of service in the current service structure is one of the items the board has tasked us with.

We are in the process of reaching out to other groups throughout the World-Wide fellowship and looking for new committee members to join. We are exploring ideas on how to make sure the voice of the fellowship is heard if groups or meetings don't have a GSR. Also stressing amongst the GSRs the importance of being educated with the various documents ABA has on their website, AA service manual, traditions and other areas which can be of benefit for them to focus on which will be an asset to them in representing their group.

As a committee our meetings have grown to up to 16 people in attendance and have thus far met quorum at all our meetings. There are 15 GSRs in contact with the members to obtain information, staying present with what is happening with the committee, fellowship and still involved in one capacity or another.

We recently have changed our meeting times in hopes of more involvement from GSRs and increase GSR attendance at meetings. Recently having daylight savings and some countries still have not had a time change, the time may need to be revisited again.

It is great to see the dedication and service the GSRs have and positive energy moving forward.

In service,

Myra
