

Report for March 31, 2019 AGM
from the Meeting Support Committee

The Virtual Meeting Support Committee was designed to assist virtual meetings. We started the year with good membership, but by spring fewer people were attending. We believe the declining membership in the VMSC membership, was due in part to the strengthening of the Virtual Meetings. We also recognize that some of our live meetings may benefit from the supportive environment of this committee. In June, we decided to propose expanding our mandate to include supporting live meetings and provide a more vital role in supporting membership in spreading ABA's message to those who still suffer from eating disorders.

In November, Amy, long time chair of the committee, stepped down from chairing. In February, the board supported the plan to increase the scope of this committee. We have changed our name to reflect our larger scope to Meeting Support Committee.

We are currently seeking new members from both live and virtual meetings. Ideally, this committee would have members with various lengths of sobriety and 12 Step experience. We are also seeking a chair for this committee.
