

President's report for October 19, 2020 GSA Board Meeting

Submitted by Amy Gillard

Hello Directors,

I am looking forward to the 2nd Edition of the book getting out there. It is exciting to have new stories and the new Forward and Appendices. I realize that it has been a long hard road getting this out and we can chat further on how we can improve processes in the future.

We shall have to decide what to do with the 1st edition books that we will have left. Please be prepared to discuss this.

Also, some people have let me know that they would like to see us provide some books to some members for free. I have put that on the agenda as well.

I again look forward to a report from the Sexual Harassment Ad hoc Committee as I would like to see the questions from the members concerned with this issue taken care of. I also know that we will hear from the Self Support Committee as they have been working on various workshops.

Thanking you for your service this month and always,

In service,

Amy G.
