

SSC committee report. May 2021

The committee met and brainstormed on further fundraising workshops. We are moving away from skills to topics more related to our recovery. Our members have suggested three topics so far. Surrender, traditions and sponsorship. We discussed timing of new workshops wanting to cooperate with the retreat in September. We have decided to move ahead with one before the retreat on the topic of Surrender to be held in June. A new poster will be created to inform our membership of the direction the committee is taking. We are asking for new topics and facilitators speakers.

Our committee will be reviewing the process of Inventory committee findings at our next meeting.
