

## **PUBLIC INFORMATION COMMITTEE REPORT**

January 2022 | Submitted by Alison E.

The Public Information Committee had its final meeting of 2021 on Friday, December 3<sup>rd</sup>. The three of us spent our time on our list of treatment centres and community facilities to be contacted about receiving a second edition of the ABA textbook, and on the letter we will enclose with those books.

The latter has been finalized and uploaded to a new folder on Google Drive, ready to be printed on an ABA letterhead and addressed to each recipient once Joan has made introductions by phone.

The former has also been added to the Google Drive folder so all our members can access and add to it. While the spreadsheet is a database of all the places we've left pamphlets and/or books, we used a yellow highlight to indicate which would be ideal candidates for this particular outreach. Our committee has entered contact info for a number of facilities across Canada, but would appreciate help with sourcing ones in the US and UK.

Luckily, we will hopefully be joined at our next meeting by a member in Ireland, who has already agreed to look into candidates in her area.

Our next meeting is Thursday, January 13<sup>th</sup> at 2pm Eastern / 11am Pacific.
