

Self-Support Committee
AGM Report
March 20, 2022

Committee Members:

Dawn A, Judy K, Caren J

It has been a tremendous year for the SSC. Our committee's focus is on encouraging our fellowship to be self –supporting: financially and through service. We have provided many opportunities for folks to increase their contributions via workshops. Our latest tool is the monthly Newsletter which we hope will be a source of building our communication and connection with one another.

We have been given many suggestions and were up for the challenge of implementing them as we go. The ideas have come directly from other members: at retreats, board meetings, inter service collaborations and the inventory
