Board Meeting

March 20, 2022

Bylaw Update report

The bylaw committee has met four times between October 2021 and March 2022. Much of the review of the bylaws has involved:

1. Reviewing the language and wording in the bylaws and creating consistency where needed. The use of the title Director vs Member was reviewed and changed as needed to bring clarity to the role of the members who constitute the board. The title of Director was therefore highlighted.
2. Some of the bylaw topics were long and difficult to read. Subsets of various bylaws were created in order to bring clarity to a specific bylaw.
3. We have a 1 year sobriety requirement to be a Director on the board. We are considering a recommendation to have that requirement be put into the bylaws.
4. A review of the Society Act was done to ensure that we are following the Act direction for alteration of the bylaws by *Special Resolution of the Society*.
