

Personnel and GSO Committee Report

AGM 2022

There hasn't been a lot of action for this committee this past year. We have continued to monitor tasks to ensure that the Operations Manager is being used in the most efficient way possible. The contract has been updated and we are just waiting on final approval before having it re-signed. The Operations Manager is working on completing a Procedures Manual so that everything that is necessary to do for the position is recorded should someone else ever have to step into the job. Otherwise, it has been a quiet year.
