

Ad Hoc Hebrew Translation Committee

The state of membership in A.B.A. in the last six months. In the last year our sorority has undergone many changes. Until half a year ago we had two meetings, one face-to-face meeting and one Zoom meeting. In both groups, we had difficulty conveying the message that the meetings are held by friends who are willing to provide service, so in order to strengthen the camaraderie and strength of the group, we decided to unite the groups for one weekly Zoom meeting.

Since then we have experienced that the strength of the group has increased by old members who continue to give their experience, strength and hope and by new members who slowly join the meetings and the service. The spirit in the room has become stronger and we feel more hopeful to convey the message to the friend who is still suffering.

About three months ago, a new frontal group was opened. The core of sobriety allows us to continue to carry the message.

The final editing and translation of the second edition has been on hold in chapter 15 for 7 months due to lack of funds and regrouping of the fellowship. It is currently awaiting to be resumed and progress will be updated periodically.

Best regards

Vicki Haimov
